TITLE 32—NATIONAL DEFENSE

Chapter IX—Office of Materials Distribution, Bureau of Foreign and Domestic Commerce, Department of Commerce

[Rubber Order R-1, as Amended Nov. 25, 1947, Amdt. 2]

PART 4600—RUBBER, SYNTHETIC RUBBER AND PRODUCTS THEREOF

Part 4600, Rubber Order R-1, as amended November 25, 1947 (12 F. R. 8000) is hereby further amended as follows:

1. Section 4600.03a, *Restrictions on consumption of natural rubber latex*, is amended to read as follows:

§ 4600.03a *Restrictions on consumption of natural rubber latex.* Natural rubber latex may be consumed without limitation in the manufacture of any product except latex foam automobile topper pads of 2½ inch or less average thickness, which shall contain in RHC not more than 66½ percent natural rubber latex by weight.

2. A new § 4600.04 is inserted to read as follows:

§ 4600.04 *Allocation of GR-S by OMD.* (a) The Office of Materials Distribution will allocate GR-S (including latices) for each calendar quarter beginning with the first quarter of 1948, and will notify the Office of Rubber Reserve, Reconstruction Finance Corporation, of the amounts allocated and to be sold to each person applying to the RFC for a Purchase Permit. The Office of Rubber Reserve will issue Purchase Permits against Requests to Purchase submitted to it only up to the amounts allocated by OMD per quarter.

(b) Basis for allocation by OMD: (1) In determining the quantity of GR-S to be allocated to each applicant submit-

ting a Purchase Request to the Office of Rubber Reserve, Reconstruction Finance Corporation, the Office of Materials Distribution will use the fourth calendar quarter of 1947 as the base period. Of the GR-S available for distribution during the quarter, a tonnage will be set aside sufficient to meet the quarter's requirements for products under specification control in order to produce an equivalent number of such products as were produced in the base period. In determining each allocation the manufacturer's inventory will be taken into account and in general allocations will not be made beyond a quantity which will result in an inventory on hand and in transit in excess of 20 days' supply. The balance of the GR-S available for distribution during the quarter will be held for products not under specification control.

(2) Each manufacturer of products under specification control will be allocated from the tonnage set aside for such products, sufficient GR-S for him to produce up to the same quantity of such products as he produced in the base period. Such allocations will be based upon data on file in the Rubber Division, OMD.

(3) Each manufacturer of products not under specification control who establishes a hardship case resulting from technical difficulties in using materials other than GR-S will be allocated from the tonnage held for such products sufficient GR-S for him to produce up to the same quantity of such products as he produced in the base period.

(4) After the requirements have been met for the manufacturers of products under specification control, and for the manufacturers of products not under specification control who establish a technical hardship, a final distribution of any GR-S then unallocated will be made. This final allocation will be made on the basis of the ratio which the percentage of such voluntary consumption by each manufacturer in the base period bears to the total voluntary consumption of GR-S in the base period. Voluntary consumption means consumption of GR-S in quantities exceeding the amounts required by the specification controls of this order.

(5) Appeals from any of the above provisions should be submitted by letter to the Rubber Division, Office of Materials Distribution, in accordance with § 4600.14.

3. In Appendix II, List 8, *Manufacture of tires*, Table A is amended to read as follows:

TABLE A—ALL TYPES OF PNEUMATIC TIRES

[Note: Table A revised Feb. 12, 1948]

Tire Groups, Size and Type, and Maximum Percent¹ Natural Rubber of Total RHC, by Weight, for Wire, Rayon, Nylon or Cotton Tires

(5) Bicycle, light weight.....	X
(6) Bicycle, white sidewall, balloon sizes.....	67
(7) Bicycle, other balloon sizes.....	27
(8) Rear farm tractor and all other farm implement.....	13

¹ *Tolerances.* Individual sizes may exceed the specified maximum percentage, provided the average natural rubber content of all sizes within the groups as listed in this Table A does not exceed the indicated maximum percentage. No tire within the groups permitted 94% or more natural rubber shall be manufactured with a natural rubber content more than 5% greater than the maximum allowable percentage of total RHC for tires in those groups. No tire within the groups permitted 67% or less shall be manufactured with a natural rubber content more than 20% greater than the maximum allowable percentage of total RHC for tires in each group. For example, a tire in the group in which a maximum of 23% of natural rubber is permitted, may be made with 43% natural rubber.

4. In Appendix II, List 9, *Manufacture of tire tubes*, change subparagraph (1) of paragraph (a) *Consumption of natural rubber in tire tubes* to read as follows:

(a) *Consumption of natural rubber in tire tubes.* (1) No natural rubber shall be consumed in tubes of 6.00, 6.25-6.50 and 6.50 (old sizes), 6.70 through 7.60 (new sizes) cross-section of 15" and 16" diameters or where dual markings are involved, specifications to follow old size, except that:

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter III—Coast Guard: Inspection and Navigation

[CGFR 47-61]

PART 322—PILOT RULES FOR THE GREAT LAKES

MISCELLANEOUS AMENDMENTS

A notice regarding proposed changes in the regulations for Pilot Rules for the Great Lakes and their connecting and tributary waters and the St. Marys River was published in the FEDERAL REGISTER dated February 18, 1947 (12 F. R. 1109), and a public hearing was held by the Merchant Marine Council on March 27, 1947, at Washington, D. C.

The purpose of the amendments to the regulations is to improve safety in navigation by changing the Pilot Rules for the Great Lakes and to obtain a correct and uniform administration of the Statutes. All the written and oral comments and suggestions submitted were consid-

ered by the Merchant Marine Council and where practicable were incorporated into the regulations. These amendments to the regulations were also referred to the Government of Canada for possible promulgation of similar Canadian Regulations for uniformity of rules on the Great Lakes.

By virtue of the authority vested in me by R. S. 4405, as amended (46 U. S. C. 375), section 3 of the act of February 8, 1895, as amended (sec. 3, 28 Stat. 649, 33 U. S. C. 243) and section 101 of Reorganization Plan No. 3 of 1946 (11 F. R. 7875), the following amendments to the regulations are prescribed and shall become effective on and after March 15, 1948:

1. Section 322.02 *Definitions and risk of collision* is amended by deleting the word "compass" before the word "bearing" in the first sentence of the last undesignated paragraph.

2. Section 322.1 is amended to read as follows:

§ 322.1 *Signals.* (a) In all weathers every steam vessel under way, in taking any course authorized or required by the rules in this part, shall indicate that course by the following signals on her whistle, to be accompanied, whenever required, by corresponding alteration of her course; and every steam vessel receiving a signal from another shall promptly respond with the same signal or sound the danger signal as provided in § 322.2.

(b) Except as otherwise provided in the rules in this part, one blast shall mean, "I am directing my course to starboard;" two blasts shall mean, "I am directing my course to port."

3. Section 322.4 is amended to read as follows:

§ 322.4 *Vessels passing each other.* The whistle signals indicating course shall be given and answered in accordance with the rules, not only when an alteration of course is required, but at all times before vessels approach within half a mile of each other, from whatever direction, if their courses will bring them within that distance from each other.

4. Section 322.5 is amended to read as follows:

§ 322.5 *Vessels approaching each other "head and head."* When steam vessels are meeting end on, or nearly end on, it shall be the duty of each steam vessel to pass on the port side of the other; and the pilot of either steam vessel may be first in determining to pursue this course, and thereupon shall give, as a signal of this intention, one distinct blast of his whistle, which the pilot of the other steam vessel shall answer promptly by a similar blast of his whistle, and thereupon such steam vessels shall pass on the port side of each other. But if the courses of such steam vessels are so far on the starboard of each other as not to be considered by pilots as meeting end on, or nearly end on, the pilot so first deciding shall immediately give two distinct blasts of his whistle, which the pilot of the other steam vessel shall answer

promptly by two similar blasts of his whistle, and they shall pass on the starboard side of each other: *Provided, however,* That in all narrow channels where there is a current, and in the rivers St. Mary, St. Clair, Detroit, Niagara and St. Lawrence, when two steam vessels are meeting, the descending steam vessel shall have the right of way and shall, before the vessels shall have arrived within the distance of half a mile of each other, give the signal necessary to indicate which side she elects to take.

5. Section 322.6 is amended to read as follows:

§ 322.6 *Vessels nearing short bend or curve in channel.* Whenever a steam vessel is nearing a short bend or curve in the channel, where, from the height of the banks or other cause, a steam vessel approaching from the opposite direction cannot be seen for a distance of half a mile, the pilot of such steam vessel, when he shall have arrived within half a mile of such curve or bend, shall give a signal by one blast of the whistle, of at least 8 seconds duration, which signal shall be answered by a similar blast, given by the pilot of any steam vessel within hearing that may be approaching on the other side, and within half a mile, of such bend or curve. Should such signal be so answered by a steam vessel upon the farther side of such bend, then the usual signals for meeting and passing shall immediately be given and answered.

6. Section 322.7 is amended to read as follows:

§ 322.7 *Vessel leaving a dock.* When a steam vessel is leaving her dock or berth, she shall give a signal of one blast of the whistle, of at least 8 seconds duration, which signal shall be answered by a similar blast given by any approaching steam vessel, but she and any approaching vessel shall be governed by Rule 27, the general prudential rule, until her course is apparent, and then both vessels shall be governed by the applicable steering and sailing rules.

7. Section 322.8 is amended to read as follows:

§ 322.8 *Vessels running in same direction; signals for overtaking.* (a) When one steam vessel is overtaking another and the steam vessel astern shall desire to pass on the right or starboard side of the steam vessel ahead, she shall give one distinct blast of the whistle as a signal of such desire and, if the vessel ahead answers with one blast, she shall direct her course to starboard; or if she shall desire to pass on the left or port side of the vessel ahead, she shall give two distinct blasts of the whistle as a signal of such desire and, if the vessel ahead answers with two blasts, she shall direct her course to port; or if the vessel ahead does not think it safe for the vessel astern to pass at that time, she shall immediately signify the same by giving the danger signal of several short and rapid blasts of the whistle, not less than five. It shall then be the duty of the steam vessel astern to hold back and, after an appropriate interval, if she still

desires to pass, to make the proper signal so indicating; but under no circumstances shall the steam vessel astern attempt to pass the steam vessel ahead until such time as they have reached a point where it can be safely done, and the steam vessel ahead shall signify her willingness by blowing the proper answering signal. The steam vessel ahead shall in no case attempt to cross the bow or crowd upon the course of the other steam vessel.

(b) Every vessel coming up with another vessel from any direction more than two points abaft her beam; that is, in such a position, with reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's sidelights, shall be deemed to be an overtaking vessel, and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of the rules in this part, or relieve her of the duty of keeping clear of the overtaken vessel until the overtaken vessel is finally passed and cleared.

(c) As the overtaking vessel cannot always know with certainty whether she is forward or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

8. Section 322.10 is amended to read as follows:

§ 322.10 *Vessels approaching each other at right angles or obliquely.* (a) When two steam vessels are approaching each other at right angles or obliquely so as to involve risk of collision, other than when one steam vessel is overtaking another, the steam vessel which has the other on her own port side shall hold her course and speed; and the steam vessel which has the other on her own starboard side shall keep out of the way of the other by directing her course to starboard so as to cross the stern of the other steam vessel; or, if necessary to do so, slacken her speed or stop or reverse. The steam vessel having the other on her own port side shall blow one distinct blast of her whistle as a signal of her intention to cross the bow of the other, holding her course and speed, which signal shall be promptly answered by the other steam vessel by one distinct blast of her whistle as a signal of her intention to direct her course to starboard so as to cross the stern of the other steam vessel or otherwise keep clear.

(b) If from any cause whatever the conditions covered by this situation are such as to prevent immediate compliance with each other's signals, the misunderstanding or objection shall be at once made apparent by blowing the danger signal, and both steam vessels shall be stopped, and backed if necessary, until signals for passing with safety are made and understood.

9. Section 322.15 is amended in paragraph (c) by inserting the word "distinct" before the word "blast" or "blasts" in the description under the diagram of

the "First Situation," "Second Situation," and "Third Situation;" and by changing paragraph (a) to read as follows:

§ 322.15 *Distress signals; posting of rules; diagrams; starting, stopping, and backing signals*—(a) *Distress signals*. When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, namely:

(1) In the daytime:

(i) A gun or other explosive signal fired at intervals of about a minute.

(ii) The distant signal consisting of a square flag having either above or below it a ball or some object resembling a ball.

(iii) A continuous sounding with any fog-signal apparatus.

(2) At night:

(i) A gun or other explosive signal fired at intervals of about a minute.

(ii) Flames from the vessel (as from burning a tar barrel, oil barrel, etc.)

(iii) Rockets or shells, throwing stars of any color or description fired one at a time at short intervals.

(iv) A continuous sounding with any fog-signal apparatus.

(R. S. 4405, sec. 3, 28 Stat. 649, as amended; 33 U. S. C. 243, 46 U. S. C. 375; sec. 101, Reorg. Plan No. 3 of 1946, 11 F. R. 7875)

CIVIL AERONAUTICS BOARD

[14 CFR, Parts 03, 04b, 06, 43]

AIRCRAFT IDENTIFICATION MARKS AND CLASSES OF AIRWORTHINESS CERTIFI- CATES

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Safety Bureau, notice is hereby given that the Bureau will propose to the Board amendments of Parts 03, 04b, 06, and 43 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or ar-

guments as they may desire. Communications should be submitted to the Civil Aeronautics Board, attention Safety Bureau, Washington 25, D. C. All communications received within 30 days after the date of this publication will be considered by the Board before taking further action on the proposed rules.

Part 43 of the Civil Air Regulations provides that aircraft identification marks shall be displayed on aircraft in the manner prescribed by the Administrator. The identification marks consist of the registration symbol "N" and the airworthiness classification symbol "C," "R," "X," or "L" followed by the registration numerals.

The purpose of the amendment to Part 43 is to eliminate the airworthiness classification symbol "C," "R," "X," or "L" from the aircraft identification mark and to provide that such identification mark shall consist of the letter "N" denoting United States registration followed by the registration symbols.

The increased number of aircraft registered requires more symbols in the registration number, making it necessary that additional space be provided for the display of aircraft identification marks. By eliminating the airworthiness classification symbol from the identification mark, as provided by this amendment, there will be more space available for additional numerals.

Elimination of the "C," "R," "X," or "L" and the display of the new identification mark may be accomplished immediately upon effectiveness of this amendment. However, it will be mandatory not later than January 1, 1949, for aircraft registered for the first time and after January 1, 1951, for all aircraft.

The amendment further provides, in lieu of displaying the airworthiness symbol as part of the identification mark of the aircraft, that the airworthiness classification shall be expressly stated on a placard or other device prominently displayed on the aircraft in the manner and form prescribed by the Administrator.

In order to make Parts 03, 04b, and 06 relating to airworthiness requirements consistent with the terminology used in the amendment of Part 43, it is proposed to use the words "standard," "restricted," "experimental," and "limited" in conjunction with the symbols "C," "R," "X," and "L," respectively.

It is proposed to amend Parts 03, 04b, 06, and 43 as follows:

1. By amending §§ 03.03, 03.041, 03.042, 04b.02, 04b.031, 04b.032, 06.011, 06.012, 06.02, and 43.102 by inserting in parentheses as alternate terms the words "standard," "restricted," "experimental," and "limited," wherever the symbols "NC," "NR," "NX," and "NL," respectively, appear therein.

2. By amending § 43.102 by adding paragraph (f) as follows:

§ 43.102 *Identification marks.* * * *

(f) *Alternate identification marks.* Effective January 1, 1949, aircraft registered for the first time and effective January 1, 1951, all aircraft shall display identification marks consisting of the Roman capital letter "N," denoting U. S. registration, followed by the appropriate identification symbols. However, this

identification mark may be displayed prior to these dates at the option of the owner of the aircraft.

When this identification mark is utilized, the appropriate airworthiness classification as prescribed in Parts 03, 04b, 06, and 09 shall be displayed on the aircraft in a manner and form prescribed by the Administrator.

3. By amending the headnote of § 43.30 to read as follows:

§ 43.30 *Instruments and equipment for NC powered aircraft or powered aircraft with standard airworthiness certificates.* * * *

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

MILITARY COMPETENCE

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Safety Bureau, notice is hereby given that the Bureau will propose to the Board amendments of Parts 20 and 22 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted to the Civil Aeronautics Board, attention Safety Bureau, Washington 25, D. C. All communications received within 30 days after the date of this publication will be considered by the Board before taking further action on the proposed rules.

Sections 20.56, 22.118, and 22.129 presently provide that a person who has been discharged or released from active duty in the armed forces may apply for a pilot certificate with a private or commercial rating based on military competence, if he applies within 12 calendar months from date of release from such military service. This regulation can be interpreted to permit a reserve officer taking acting duty with the armed forces for a period of only two weeks to apply for a pilot certificate with a commercial rating even though he had not been on active duty as a rated pilot on solo flying status during that period and had obtained his flight training several years prior to this active duty period. It appears that the practice of permitting the issuance of a pilot certificate with a commercial rating on such a basis does not provide for an adequate level of safety in commercial flying.

It is also proposed to permit an applicant for a pilot certificate with a private rating to apply on the basis of military competence, if he is a member of the

armed forces or has been honorably discharged or released from such service and if he has had at least 10 hours of solo flying in military aircraft within the preceding 12 months.

The proposed amendments provide that a pilot certificate with a commercial rating may be issued on a military competence basis, if the applicant is a member of the armed forces and has been on active duty as a rated pilot on solo flying status for a period of at least 6 consecutive months immediately preceding application or, if honorably discharged from the armed forces, he has served for 6 consecutive months on solo flying status as a rated pilot within the 18 months preceding his application. The purpose of this amendment is to require that the standards prescribed for the issuance of a pilot certificate on a military competence basis are not less than those prescribed by the Civil Air Regulations for a regularly issued pilot certificate.

It is proposed to amend Parts 20 and 22 as follows:

1. By amending § 20.56 through § 20.561 to read as follows:

§ 20.56 *Military competence.* Certificates granted on military competence shall be issued under the following conditions.

§ 20.561 *Private pilot rating.* An applicant for a pilot certificate with a private pilot rating on the basis of military competence shall be deemed to have met the aeronautical knowledge, experience, and skill requirements of the Civil Air Regulations for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of the Civil Air Regulations and presents reliable documentary evidence showing:

(a) That he is a member of the armed forces of the United States or a civilian employee of the ferry or transport services of such forces on solo flying status as a rated pilot or the equivalent, or

(b) That he has been honorably discharged or released from such service and has had at least 10 hours of solo flying in military aircraft within the preceding 12 months.

§ 20.562 *Commercial pilot rating.* An applicant for a pilot certificate with a commercial pilot rating on the basis of military competence shall be deemed to have met the aeronautical knowledge, experience, and skill requirements of the Civil Air Regulations for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of the Civil Air Regulations and presents reliable documentary evidence showing:

(a) That he is a member of the armed forces of the United States or a civilian employee of the ferry or transport services of such forces and that he has been on active duty on solo flying status as a rated pilot or the equivalent for a period of at least 6 consecutive months immediately preceding application, or

(b) That he was honorably discharged or released from such forces and had been on active duty of the type specified in paragraph (a) of this section for a period of at least six consecutive months within 18 months immediately preceding application.

PROPOSED RULE MAKING

§ 20.563 *Aircraft type and class ratings.* Aircraft type and class ratings will be issued with a private or commercial pilot certificate issued on the basis of military competence, or with an effective private or commercial pilot certificate, to an applicant who presents reliable documentary evidence showing that within the preceding 12 months he has had at least 10 hours of flying time in military aircraft during which time he was the first pilot or the sole manipulator of the controls of an aircraft of the type and class for which a rating is sought.

§ 20.564 *Instrument rating.* An instrument rating will be issued to an applicant who holds a currently effective military instrument rating, if the requirements for the issuance of such rating and the privileges authorized by it are not less than those of the Civil Air Regulations with respect to such rating.

2. By amending § 22.118 to read as follows:

§ 22.118 *Military competence.* An applicant for a pilot certificate with a private lighter-than-air pilot rating on the basis of military competence shall be deemed to have met the aeronautical knowledge, experience, and skill requirements of the Civil Air Regulations for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of the Civil Air Regulations and presents reliable documentary evidence showing:

(a) That he is a member of the armed forces of the United States or a civilian employee of the ferry or transport services of such forces on solo flying status as a rated lighter-than-air pilot or the equivalent, or

(b) That he has been honorably discharged or released from such service and has had at least 10 hours of solo flying in military lighter-than-air aircraft within the preceding 12 months.

3. By amending § 22.129 to read as follows:

§ 22.129 *Military competence.* An applicant for a pilot certificate with a commercial lighter-than-air pilot rating on the basis of military competence shall be deemed to have met the aeronautical knowledge, experience, and skill requirements of the Civil Air Regulations for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of the Civil Air Regulations and presents reliable documentary evidence showing:

(a) That he is a member of the armed forces of the United States and that he has been on active duty on solo flying status as a rated lighter-than-air pilot with unlimited instrument privileges for a period of at least 6 consecutive months immediately preceding application, or

(b) That he was honorably discharged or released from such forces and had been on active duty of the type specified in paragraph (a) of this section for the period of at least six consecutive months within 18 months immediately preceding application.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

CANNED GREEN BEANS AND CANNED WAX BEANS

NOTICE OF HEARING WITH RESPECT TO DEFINITIONS AND STANDARDS OF IDENTITY AND STANDARDS OF QUALITY

In the matter of proposals to amend the definitions and standards of identity and standards of quality for canned green beans and canned wax beans.

Notice is hereby given that the Administrator of the Federal Security Agency, upon application of the National Canners Association, representing a substantial portion of the interested industry, stating reasonable grounds therefor, and in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Secs. 401, 701, 52 Stat. 1046, 1055; 21 U. S. C. 341, 371), will hold a public hearing commencing at 10 o'clock in the morning of March 16, 1948, in Room 5541, Federal Security Building, Independence Avenue and Fourth Streets SW., Washington 25, D. C., for the purpose of receiving evidence upon proposals to amend §§ 51.10, 51.11, 51.15, and 51.16. The proposed amendments follow:

1. That subparagraph (1) of paragraph (a) of § 51.10 be amended to read:

(1) Whole pods, or transversely cut pods not less than $2\frac{3}{4}$ inches in length, including such broken pieces of pods or pods cut less than $2\frac{3}{4}$ inches in length as normally occur in the commercial packing of such product.

If this method of providing for broken pieces is deemed impracticable, this subparagraph should provide for a tolerance for broken pieces or pods cut less than $2\frac{3}{4}$ inches in length not to exceed --% of the total number in the container.

2. That subparagraph (4) of paragraph (a) of § 51.10 be amended to read:

(4) Pieces of pods less than $\frac{3}{4}$ inch in length, with not in excess of 30% of the number of pieces in the container being not more than ----- inches in length.

3. That paragraph (c) of § 51.10 be amended to read:

(c) Wherever the name "Green Beans" appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the words and statements prescribed by paragraph (b) of this section shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter, except that the varietal name of the green beans, the

designation of the length of cut, or the designation of such beans as "stringless" where this is a true designation, may so intervene.

For the proposed review there may be substituted any other form of language which will accomplish the purpose of permitting the use of the term "stringless" where a true and correct designation, as intervening matter in any portion of the prescribed common or usual names, e. g., so as to permit the continued use of such existing label terms as "Cut Green Stringless Beans." Necessarily, similar changes will have to be made in paragraph (b) of § 51.15.

4. That there be added to subparagraph (1) of paragraph (a) of § 51.11 the following: " ; Provided, That where the number of units per 12 ounces exceeds 240 not more than 25% of the total units are less than $\frac{1}{2}$ inch long."

5. That subparagraph (2) of paragraph (a) of § 51.11 be deleted.

6. That the figure in subparagraph (4) of paragraph (a) of § 51.11 be revised to read "0.20%".

7. That subparagraph (5) of paragraph (a) of § 51.11 be revised to read substantially as follows:

(5) There are not more than --% of consequentially blemished units in the total number of units in the container. A unit is considered blemished when any consequential blemish exceeds the area of a circle $\frac{1}{8}$ inch in diameter.

8. That paragraph (b) of § 51.11 be revised to conform to the revisions made in paragraph (a), and that subparagraph (6) of this paragraph be amplified to prescribe in greater detail and with greater precision the type and intensity of the prescribed washing.

9. That paragraph (c) of § 51.11 be amended to provide for optional use of specific statements of the respect or respects in which the product is substandard.

10. That comparable revisions be made in § 51.16.

Mr. Bernard D. Levinson is hereby designated as presiding officer to conduct the hearing, in the place of the Administrator, with full authority to administer oaths and affirmations and to do all other things appropriate to the conduct of the hearing. The presiding officer is required to certify the entire record of the proceedings to the Administrator for initial decision.

The hearing will be conducted in accordance with the rules of practice provided therefor (21 CFR, Cum. Supp. 2.701 to 2.715).

At the hearing evidence will be restricted to testimony and exhibits that are relevant and material to the issues involved in the proposals to amend.

These proposals to amend are subject to adoption, rejection, amendment, or modification by the Administrator, in whole or in part, as the evidence of record adduced at the hearing may require.

In the matter of Mackay Radio and Telegraph Company applications for radiotelegraph circuits between the United States and Finland, Portugal, Surinam, and The Netherlands.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of February 1948;

The Commission, having under consideration the record of the proceedings in Docket No. 8465, In the Matter of Mackay Radio and Telegraph Company Applications for Special Temporary Authorizations to communicate with Helsinki, Finland; Lisbon, Portugal; Paramaribo, Surinam; and The Hague, Netherlands; and having also under consideration a petition for reconsideration of the Commission's order of October 13, 1947, in Docket No. 8465, filed by RCA Communications, Inc., on November 4, 1947, in which it is requested that said Commission order be reconsidered and set aside, and that the Commission take appropriate action to revoke, pending a hearing, the authority of Mackay to communicate with the four countries covered by said order of October 13, 1947; and an "opposition" to said petition filed by Mackay Radio and Telegraph Company on November 17, 1947;

It appearing, that on January 29, 1948, Mackay Radio and Telegraph Company filed a telegraphic application (File Nos. It further appearing, that the aforementioned special temporary authorizations, as renewed, are due to expire on February 13, 1948;

It further appearing, that upon reconsideration of the order of October 13, 1947, in Docket No. 8465, and the record in that Docket, certain issues of fact and policy are presented upon which there should be a hearing at which the parties will have an opportunity to present evidence;

It further appearing, that Mackay Radio and Telegraph Company has on file with the Commission applications for modification of license to communicate with the above-named countries (File Nos. 8047-MLHT-A and 10364-MLHT-B), which applications are pending in Docket No. 7974, in the Matter of Radio-Telegraph Service between the United States and Foreign and overseas points and assignment of frequencies for such service;

It further appearing, that the Commission, upon examination of the above-described applications of Mackay Radio and Telegraph Company for renewal of the aforementioned Special Temporary Authorizations and for modification of license, is unable to determine that public interest, convenience, or necessity would be served by the granting thereof;

It is ordered, That the above petition of RCA Communications, Inc., for reconsideration is granted;

T1-RSA-657-1; T1-RSA-658-1; T1-RSA-659-1; T1-RSA-680-1) and the above application of Mackay Radio and Telegraph Company for modification of license (File No. 7619-C4-ML-C) to authorize communication with The Netherlands via its relay station at Tangier, are designated for hearing herein, for the following reasons:

(1) To determine whether public interest, convenience, or necessity would be served by authorizing Mackay Radio and Telegraph Company to communicate either temporarily, or on a regular basis, with one or more of the countries applied for, in the light of all pertinent factors relating to such determination, including, but not limited to, the following:

(a) The extent of public need, if any, for additional telegraph communication

facilities between the United States, on the one hand, and each of the four countries involved herein, on the other hand;

(b) The present and expected volume of telegraph traffic between the United States, on the one hand, and each of the four countries, on the other hand;

(c) The nature, capacity and adequacy of existing communication facilities between the United States, on the one hand, and each of the four countries, on the other hand;

(d) The extent to which applicant's presently authorized frequencies and facilities will be used for operating the proposed circuits between the United States and each of the four countries, and whether such use is the most desirable use of these frequencies and facilities for providing the United States public with rapid and efficient communication service;

(e) To determine, with respect to the proposed operation with each of the four countries, the extent to which the applicant will be required, in order to give adequate service, to use frequencies and facilities in addition to those now in use by it;

(f) The capacity, transmission qualities, and scheduled hours of operation of each of the circuits proposed in the above applications;

(g) The nature of any contracts, agreements, understandings, and routing practices between the applicant and any other carrier, or operating administration, in connection with the operation of the circuits proposed in the above applications;

(h) The nature of the service to be rendered by applicant over each of the proposed circuits, including the classes of service to be offered, the charges to be made for each such class, and the division of such charges;

(i) Competition in communication service with the points involved;

(j) The financial effects upon Mackay Radio and Telegraph Company and the other United States telegraph carriers serving the four countries involved, of a grant of one or more of the above applications;

(2) To determine, if the application of Mackay Radio and Telegraph Company to communicate directly with The Netherlands, is denied, whether public interest, convenience, or necessity would be served by authorizing Mackay Radio and Telegraph Company to communicate with The Netherlands via its relay station at Tangier, in the light of all the pertinent factors specified above in paragraph number (1), and, in addition, the following factors:

(a) The alternate routes available to the applicant for the movement of traffic destined to The Netherlands;

(b) The division of tolls and speed of service on telegraph traffic between the United States and The Netherlands, moving over such alternate routes, as compared with the division of tolls and speed of service on such traffic moving via Tangier;

(c) The promotion of the most efficient and economical use of frequencies and facilities in furnishing radio-telegraph service between the United States and The Netherlands;

It is further ordered, That Mackay Radio and Telegraph Company and RCA Communications, Inc., are made parties respondent herein; and that any other United States carrier engaged in furnishing foreign telegraph communication service may intervene and participate fully herein, provided that within twenty days of the date hereof, it files a written notification of its intention to do so;

It is further ordered, That the hearings herein shall be held at the offices of the Commission at Washington, D. C., beginning at 10:00 a. m. on the 8th day of March 1948.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 10th day of February A. D. 1948.

The Los Angeles Stock Exchange has made application to the Commission pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 for permission to extend unlisted trading privileges to the Common Stock, \$1.00 Par Value, of Radio-Keith-Orpheum Corporation, RKO Building, New York 20, New York.

After appropriate notice and opportunity for hearing and in the absence of any request by any interested person for hearing on this matter, the Commission on the basis of the fact submitted in the application makes the following findings:

(1) That this security is listed and registered on the New York Stock Exchange; that the geographical area deemed to constitute the vicinity of the Los Angeles Stock Exchange with respect to this security traded on the San Francisco Stock Exchange is Southern California and Arizona; that out of a total of 3,899,912 shares outstanding, 83,590 shares are owned by 866 shareholders in the vicinity of the Los Angeles Stock Exchange; and that in the vicinity of the Los Angeles Stock Exchange there were 1,588 transactions involving 184,412 shares from October 1, 1946 to September 30, 1947;

(3) That the extension of unlisted trading privileges on the applicant exchange to this security is otherwise appropriate in the public interest and for the protection of investors.

Accordingly it is ordered, Pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934, that the application of the Los Angeles Stock Exchange for permission to extend unlisted trading privileges to the Common Stock, \$1.00 Par Value, of Radio-Keith-Orpheum Corporation be, and the same is, hereby granted.

ELECTRIC BOND AND SHARE CO. ET AL.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 9th day of February A. D. 1948.

In the matter of Electric Bond and Share Company, Ebasco Services, Incorporated, Two Rector Street Corporation, File No. 70-1728.

Notice is hereby given that a joint application and declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Electric Bond and Share Company ("Bond and Share"), a registered holding company, its wholly owned non-utility subsidiary, Ebasco Services, Incorporated ("Ebasco"), and by Ebasco's wholly owned non-utility subsidiary, Two Rector Street Corporation ("Two Rector"). Applicants-declarants have designated sections 6 (b), 12 (b), 12 (f), and 12 (g) of the act and Rules U-42, U-45 and U-50 as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than March 1, 1948, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after March 1, 1948, said application-declaration, as filed or as amended, may be granted and may become effective as provided in Rule U-23 of the rules and regulations promulgated under said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application-declaration which is on

file with this Commission for a statement of the transactions therein proposed which are summarized as follows:

Two Rector has outstanding in the hands of The Prudential Insurance Company of America ("Prudential") a \$2,400,000 First Mortgage on real estate located at 2 Rector Street, New York. Such mortgage bears interest at the rate of 4½% per annum from April 1, 1945, to January 1, 1955, and at the rate of 5% per annum from January 1, 1955, to April 1, 1955, the date of the expiration of the mortgage. Two Rector proposes to pay \$400,000 on account of the principal of this indebtedness and to renew the loan for the balance of \$2,000,000 for a period of 15 years from January 1, 1948, with interest at the rate of 4% per annum for the first five years and 3½% per annum thereafter. Payments on account of principal are not to commence until April 1, 1951, after which quarterly payments of \$51,671.76, representing payments both on account of principal and interest, are to be paid until the entire loan is paid off.

To enable it to make the \$400,000 payment, Two Rector proposes to borrow \$375,000 from a New York bank for a term of three years, payable in equal annual instalments and bearing interest at the rate of 2½% per annum.

In connection with the proposed extension, Bond and Share, Ebasco, Two Rector and Prudential propose to execute agreements which will extend the present lease terms from 1955 to 1963 except for certain modifications with respect to rental payments from January 1, 1948, to April 1, 1951. The agreements provide that Ebasco will pay, as a minimum, a net rental to Two Rector which will give that corporation net earnings, before interest and depreciation deductions, sufficient to cover the payments of interest and principal due under the terms of the bank loan as well as the interest and principal due on the mortgage. Bond and Share under the agreements is liable to Two Rector in the event Ebasco defaults.

Applicants-declarants request that the Commission's order granting the application and permitting the declaration to become effective be issued as soon as may be practicable and that it be effective forthwith upon the issuance of such order.

By the Commission.
